

# ROSE

CONTRACTING

## Vision

Rose Al Jabal Gen Cont. Est. aims to be a trusted and leading contracting company recognized for quality, reliability, and timely delivery, contributing to sustainable development and long-term partnerships across the region.

## Mission

Rose Al Jabal Gen Cont. Est. aims to deliver high-quality contracting services through efficient project execution, skilled manpower, and strict adherence to safety, quality, and regulatory standards, ensuring client satisfaction and long-term partnerships.

## Values

**Rose Al Jabal Gen Cont. Est.** is committed to delivering high-quality workmanship and services that meet or exceed client expectations.

# About Us

## Your Partner in Project Excellence

Rose Contracting is a leading manpower rental and contracting company committed to providing reliable, skilled, and semi-skilled workforce solutions across various industries. With a strong focus on quality, compliance, and client satisfaction, we bridge the gap between businesses and the talent they need to thrive.

Established with the vision to support businesses in achieving operational excellence, we specialize in supplying manpower for oil and gas, construction, industrial, logistics, and other sectors. Our workforce is carefully selected, trained, and deployed to ensure maximum efficiency, safety, and productivity.

At Rose Contracting, we understand that every project has unique requirements. That's why we offer customized manpower solutions that are flexible, scalable, and tailored to meet the specific needs of our customers. Our dedicated team works closely with clients to understand their challenges and provide workforce solutions that deliver measurable results.

Driven by professionalism, integrity, and a commitment to excellence, Rose Contracting has built a reputation as a trusted partner for manpower solutions. We ensure full compliance with labour regulations and industry standards, while prioritizing the well-being and development of our workforce.

Whether you are looking for temporary staffing, project-based teams, or long-term manpower solutions, Rose Contracting is your partner for efficient, reliable, and cost-effective workforce management.

# WHAT WE DO

- ◉ RENTAL MANPOWER SERVICES
- ◉ LIFTING AND RIGGING
- ◉ JACKING & SKIDDING
- ◉ CIVIL, MECHANICAL & ELECTRICAL WORKS
- ◉ ON-SITE FABRICATION
- ◉ TURNAROUND SUPPORT
- ◉ IN-SERVICE INSPECTION
- ◉ VEHICLE & EQUIPMENT RENTAL
- ◉ INDUSTRIAL MATERIAL SUPPLY

# RENTAL MANPOWER SERVICES

Rose Contracting offers comprehensive rental manpower services designed to meet the evolving workforce needs of businesses across multiple industries. We specialize in providing skilled, semi-skilled, and unskilled personnel on a temporary or project-specific basis, allowing organizations to manage workforce demands efficiently and cost-effectively.

Our team of manpower professionals is carefully screened, trained, and deployed to ensure that they meet industry standards and client expectations. We provide workforce solutions for a variety of sectors including oil and gas, construction, industrial operations, logistics, facility management, and more. By leveraging our rental manpower services, clients can scale their workforce quickly for short-term projects, seasonal peaks, or urgent operational requirements, without the burden of long-term employment obligations.

With Rose Contracting as your trusted partner, businesses gain access to a flexible, reliable, and skilled workforce solution that adapts to changing project demands while maintaining the highest standards of efficiency, safety, and professionalism.

## Engineering & Technical Staff

---

Project Engineers (Mechanical, Civil, Electrical, Instrumentation)  
Design Engineers (Piping, Structural, Electrical)  
Quality Control / Quality Assurance Engineers  
Safety & HSE Engineers  
Process Engineers  
Instrumentation & Control Engineers  
Planning & Scheduling Engineers  
Project Coordinators

## Skilled Construction & Field Staff

---

Welders (Arc, TIG, MIG, SAW)  
Pipefitters  
Fabricators  
Electricians Technicians / Fitters  
Instrument Technicians / Fitters  
Mechanical Technicians / Fitters  
Insulation & Painting Technicians  
Scaffolders  
Riggers & Lifting Supervisors  
Heavy Equipment Operators (Cranes, Excavators, Forklifts)  
Work Permit Receivers

## Unskilled Personnel

---

General Laborers  
Cleaners / Housekeeping  
Loaders & Unloaders

## Specialized Project Personnel

---

Site Supervisors / Foremen  
HSE Officers  
Inspection & Testing Personnel (NDT, Quality Inspectors)  
Commissioning Technicians  
Construction Managers

## Administrative & Support Staff

---

Office Administrators / Assistants  
Document Controllers  
Procurement Assistants  
Drivers / Logistics Coordinators

## Semi-Skilled / Support Staff

---

Helpers / Assistants  
Material Handlers / Storekeepers  
Welders' Assistants / Electricians' Assistants / Pipe Fabrication Assistants

## LIFTING AND RIGGING

---

At Rose Contracting, we offer end-to-end lifting and rigging services designed to support safe, efficient, and precise on-site operations for industrial, construction, and EPC projects. Our expertise spans the planning, mobilization, execution, and supervision of lifting activities, ensuring that complex operations are carried out seamlessly while adhering to the highest standards of safety and quality.

Our team consists of certified riggers, crane operators, supervisors, and support personnel with extensive experience in handling heavy and oversized loads, structural installations, and critical equipment placement. Each team member is trained to implement rigorous safety protocols, follow lift plans meticulously, and coordinate effectively with project managers, engineers, and HSE teams to ensure smooth execution.

We provide a comprehensive lifting and rigging service that begins with detailed planning and engineering. This includes load assessment, selection of appropriate lifting methods, equipment specification, and risk analysis. Our certified fleet of cranes, hoists, slings, shackles, and other rigging tools is regularly inspected and maintained to ensure operational reliability and compliance with international safety standards. Every lifting operation is supported by a structured lift plan, toolbox talk, and hazard mitigation strategies, minimizing risks to personnel, equipment, and project assets.

Our on-site execution methodology emphasizes precision, efficiency, and coordination. From mobilization to the final placement of heavy equipment or structures, our supervisors and engineers continuously monitor operations to ensure that lifts are executed as per the approved plan. We also provide real-time reporting, ensuring that stakeholders remain informed of progress, challenges, and any necessary adjustments.

Safety, quality, and reliability form the core of

our lifting and rigging services. By combining skilled manpower, advanced equipment, and systematic processes, Rose Contracting ensures that every lift is performed with accuracy, adherence to timelines, and minimal disruption to overall project schedules. Our commitment to excellence enables clients to handle complex lifting operations confidently, reduce downtime, and achieve project milestones efficiently.

In addition, we offer flexible manpower solutions for short-term or long-term projects, ensuring that skilled riggers and operators are available to meet the dynamic requirements of each site. Whether it is single heavy lifts, modular installations, or continuous lifting operations across large EPC sites, Rose Contracting delivers professional, safe, and cost-effective lifting and rigging services tailored to the needs of our clients.

With Rose Contracting as your trusted partner in lifting and rigging, you gain access to a highly skilled workforce, robust equipment, and proven processes that guarantee safe, efficient, and successful execution of all lifting operations on-site.

## JACKING & SKIDDING

---

**Rose Contracting Jacking & Skidding Solutions** provides customized solutions tailored to the specific requirements of each project, ensuring efficiency and safety.

### **Skidding Method Statement**

By thoroughly examining the site conditions and understanding the characteristics of the equipment, we are able to develop comprehensive method statements. These statements provide a detailed breakdown of the step-by-step procedures involved in skidding operations. The purpose of these documents is to guarantee the adherence to all safety protocols and ensure the smooth and efficient execution of the operation.

### **Skidding Plan 2D, 3D & Animation**

Rose Contracting excels in creating detailed and precise skidding plans in 2D & 3D format, ensuring accuracy and efficiency in project execution. Moreover, we enhance skidding plans with dynamic visualizations that promote better understanding and facilitate decision-making.

### **On-Site Skidding Execution**

When it comes to on-site Skidding operations, our team of experienced professionals is second to none. With their expertise and commitment to industry standards, they excel in every step of the process, from setting up the equipment to achieving the final positioning with utmost precision. Engineering Designing & Load Analysis

### **Manual Lifting Support - Design & Load Analysis**

When it comes to designing a temporary structure or a specific part of a structure that will be utilized for manual lifting, particularly for suspending chain blocks and other lifting equipment, it is essential to carefully assess the capacity checks in accordance with the relevant standards and guidelines. Rose Contracting Engineers rely on professional tools to undertake the design and calculations for this task.

### **Scaffolding Design & Load Analysis**

Rose Contracting offers essential services in scaffolding engineering design and load analysis to guarantee the safety, stability, and functionality of scaffolding structures.

### **Structure Load Analysis & Fabrication Designing**

The Rose Contracting Structural load analysis Engineers play a crucial role in ensuring the safety and stability of structures by accurately predicting their response to different forces, detecting any potential problems in advance, and optimizing the design. Moreover, our Fabrication design team converts these analyses into feasible construction blueprints, guaranteeing adherence to regulations and maximizing resource utilization, ultimately leading to time and cost savings.

### **Skidding Support - Designing Load Analysis & Load test of Beams, Platforms, Structures.**

Our engineers design skidding beams and support structure platforms based on specific project requirements and performed rigorous load analyses using advanced software tools to ensure their structural integrity under various loading conditions. This approach guarantees safe and efficient movement of heavy loads during Skidding.

### **Crane Outrigger Pad- Designing, Load Analysis & Load test.**

Our specialized services include designing crane outrigger steel pads for optimal support and load distribution. We conduct rigorous load analysis and load test to determine the appropriate size and specifications of steel pads, enhancing crane stability during operations.

## CIVIL, MECHANICAL & ELECTRICAL WORKS

---

Rose Contracting offers comprehensive Civil, Mechanical, and Electrical (CME) services, providing end-to-end solutions for construction, industrial, and EPC projects. Our multidisciplinary team of engineers, supervisors, technicians, and skilled laborers delivers high-quality, safe, and efficient execution across all aspects of civil, mechanical, and electrical works, ensuring that projects are completed on time, within budget, and to the highest standards.

**Civil Works:** Our civil engineering team handles site preparation, structural construction, concrete works, masonry, flooring, finishing, and infrastructure development. From foundations and structural frames to roads, drainage, and building finishes, we ensure that all civil works are executed with precision, durability, and compliance with local and international construction standards. Our site teams use advanced construction techniques, modern equipment, and strict quality control measures to maintain high standards while optimizing project timelines.

**Mechanical Works:** Our mechanical division provides a full spectrum of services, including piping installation, equipment assembly, HVAC systems, machinery installation, fabrication, and maintenance. We specialize in precision mechanical works for EPC projects, refineries, industrial plants, and infrastructure development. Skilled fitters, welders, and technicians execute mechanical installations in compliance with project specifications, industry codes, and safety regulations. Equipment commissioning and testing are carried out systematically to ensure operational efficiency and reliability.

**Electrical Works:** Our electrical engineering services encompass power distribution, lighting systems, control panels, instrumentation, cable management, and electrical maintenance. We provide design, installation, testing, and commissioning services for both low and high voltage systems, ensuring adherence to international electrical standards, safety protocols, and client specifications. Our team ensures seamless integration of electrical systems with mechanical and civil works to support smooth and efficient project operations.

Safety, quality, and efficiency are at the core of all CME operations. Every task is executed following strict HSE protocols, risk assessments, and permit-to-work procedures to protect personnel, equipment, and project assets. Quality assurance measures, including inspections, testing, and documentation, are implemented throughout the project lifecycle to maintain compliance with industry standards and client requirements.

Rose Contracting combines skilled manpower, modern equipment, project management expertise, and a client-focused approach to deliver reliable and high-quality Civil, Mechanical, and Electrical services. Our ability to coordinate across multiple disciplines ensures streamlined project execution, reduces operational risks, and maximizes productivity, making us a trusted partner for EPC contractors, industrial clients, and construction projects of all scales.

## **ON-SITE FABRICATION**

Rose Contracting provides professional on-site fabrication and welding services for oil and gas EPC, industrial, and construction projects, delivering precise, safe, and high-quality solutions directly at the project site. Our skilled team of welders, fabricators, fitters, and supervisors is experienced in handling a wide range of materials including carbon steel, stainless steel, and specialized alloys, ensuring compliance with project specifications and industry standards.

Our services cover structural steel fabrication, piping spools, modules, and heavy equipment assemblies. Each project begins with detailed site surveys, material preparation, and fabrication planning to optimize workflow and efficiency. We employ advanced welding techniques such as SMAW, GTAW, GMAW, and FCAW, supported by modern, well-maintained welding and fabrication equipment.

Safety and quality are at the core of our operations. All fabrication and welding work is executed under strict quality control, including dimensional checks, weld inspections, and non-destructive testing (NDT), while adhering to rigorous HSE protocols. Our approach ensures structural integrity, minimizes risks, and maintains project timelines.

With flexible manpower deployment and tailored technical solutions, Rose Contracting ensures seamless on-site fabrication and welding operations, supporting both short-term and complex long-term projects with efficiency, precision, and professionalism.

## **TURNAROUND SUPPORT**

Rose Contracting provides comprehensive turnaround support services, combining skilled manpower supply with expert on-site execution to ensure safe, efficient, and timely completion of planned plant shutdowns and maintenance activities. Our experienced workforce, including engineers, supervisors, welders, fabricators, technicians, and support staff, is trained to operate under strict schedules, delivering high-quality results while minimizing operational downtime.

We specialize in all aspects of turnaround execution, including on-site fabrication, welding, pipe spooling, structural modifications, equipment repair, and installation of critical components. Each project is meticulously planned, with detailed manpower allocation, workflow scheduling, and coordination with client operations to optimize resource utilization and maintain seamless project execution. Our flexible manpower solutions allow rapid scaling of teams according to project requirements, ensuring that every shutdown activity is supported by the right personnel with the required skills.

Safety is a core priority, with all operations conducted under strict HSE protocols, permit-to-work systems, and thorough risk assessments. By combining skilled manpower, technical expertise, and disciplined execution, Rose Contracting delivers turnaround support services that ensure efficient, safe, and reliable maintenance operations, helping clients achieve operational continuity, reduce downtime, and complete projects on time and within budget.

## IN-SERVICE INSPECTION

---

Rose Contracting also undertakes frequent in-service inspection (On-Stream Inspection – OSI) of plant piping and equipment. Provides the complete Testing and Inspection (T&I) support by providing experienced inspection personnel like:

- ▶ Inspection Engineers
- ▶ Plant and Equipment Inspectors
- ▶ Welding Inspectors
- ▶ NDT Technicians

Our Inspection Team works for pre shutdown preparation. During plant shutdown, our inspectors perform initial inspection, report deterioration, prepare repair recommendations, follow up repairs, perform final inspections, and finally prepare final inspection report as per API 510, API 570 & API 653.

## VEHICLE & EQUIPMENT RENTAL

---

Rose Contracting offers a wide range of vehicle and equipment rental solutions to support industrial, construction, and EPC projects. We provide well-maintained, reliable vehicles and machinery, including trucks, cranes, forklifts, loaders, and specialized construction equipment, ensuring smooth operations and timely project execution.

Our rental services are supported by skilled operators and technicians who ensure safe handling, proper operation, and preventive maintenance of all equipment. We tailor our solutions to meet project-specific requirements, whether for short-term assignments, peak workloads, or long-term projects, providing flexible and cost-effective options.

With a focus on safety, reliability, and efficiency, Rose Contracting enables clients to optimize their operations, reduce downtime, and access the right equipment and manpower when and where it is needed, making us a trusted partner for vehicle and equipment rental support.

## INDUSTRIAL MATERIAL SUPPLY

---

Rose Contracting provides reliable industrial material supply services to support construction, EPC, and maintenance projects. We source and deliver a wide range of materials, including steel, piping, fittings, fasteners, electrical and mechanical components, and consumables, ensuring that clients have the right materials at the right time.

Our supply services are backed by efficient logistics, careful inventory management, and timely delivery, minimizing project delays and operational downtime. We prioritize quality and compliance, sourcing materials that meet industry standards and project specifications.

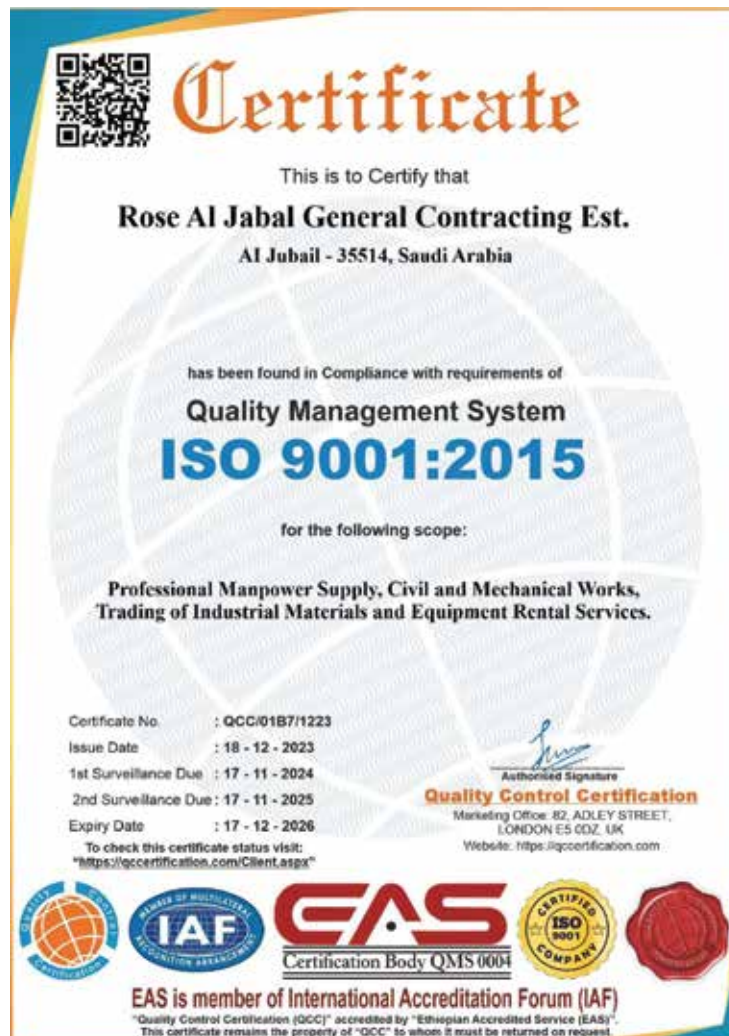

With Rose Contracting, clients benefit from a trusted partner for industrial material supply, offering convenience, reliability, and seamless support that enables smooth project execution and operational efficiency.

## Quality Policy

Rose Contracting provides professional manpower supply, equipment rental services, and mechanical, construction and civil services in Saudi Arabia. Committed to meeting and exceeding customer expectations, we have established a Quality Management System (QMS) aligned with ISO 9001:2015 standards. This Quality Policy outlines our commitment to quality, customer satisfaction, and continual improvement.

## Our Policy Statement :

Rose Contracting is committed to delivering high-quality professional manpower supply, equipment rental services, and mechanical, construction and civil services to our clients in Saudi Arabia. Our focus is on meeting customer requirements, ensuring compliance with applicable standards and regulations, and fostering a culture of continual improvement across all aspects of our business.

## HSE Policy

At Rose Contracting, we are committed to ensuring the highest standards of quality and safety in all aspects of our operations. Our dedication to excellence is reflected in our adherence to ISO 45001:2018 standards, which guide our approach to occupational health and safety management systems. This Quality Policy serves as a testament to our commitment to providing a safe and healthy work environment for our employees, subcontractors, and all stakeholders involved in our projects.

## Our Policy Statement :

Rose Contracting is dedicated to achieving and maintaining the highest level of quality and safety in the professional manpower supply, construction industry. Our commitment is to consistently deliver projects that meet or exceed client expectations, comply with legal and regulatory requirements, and prioritize the health and well-being of our workforce.

## OUR VALUED CUSTOMERS

At the forefront of our operations lies a commitment to excellence, exemplified through strategic collaborations with industry titans. We are proud to have built strong and lasting relationships with leading organizations across various industries by consistently delivering reliable services, quality workmanship, and professional support. Their continued trust and confidence inspire us to maintain the highest standards of safety, efficiency, and performance in every project we undertake. We remain committed to supporting our clients' success through dedication, integrity, and a customer-focused approach.

# GET IN TOUCH WITH US

Thank you for taking the time to review our company profile. We are committed to delivering reliable, high-quality services and building long-term partnerships with our valued clients. Whether you require professional manpower support, industrial solutions, or project execution services, our team is always ready to assist you with dedication and professionalism. We look forward to the opportunity to collaborate and support your upcoming projects with safe, efficient, and cost-effective solutions.
